Price excludes the cost of a suitably flat plot initially chosen by the client from many available in the Costa Blanca, or one the client has already purchased. Unique and new to the Costa Blanca! An innovative building concept for the realization of affordable high-quality new build design properties used now in many other countries and now available on the Costa Blanca. The very efficient 'FORM A HOUSE' are built in a revolutionary steel construction system. The 5 design models available vary in size and layout at the client's request and they can be personalized further if required. 3 bedroom house complete excluding plot. The plot is firstly chosen and purchased by the buyer with a consultation if required by the architect and engineer. 5 Models of variable sizes for living areas, swimming pools etc. Short construction time, normally 5 to 8 months depending on the time taken for planning consents etc. Very low cost. Very energy efficient. All models and finishing levels include installation of 1 thermo-siphon panel for support for the sanitary water. Combined with a 150 litre boiler for hot water. High-quality construction materials. Full specification available. Price excludes the cost of a suitably flat plot initially chosen by the client from many available in the Costa Blanca, or one the client has already purchased. Unique and new to the Costa Blanca!
